

Heading Styles

Create a uniform heading structure through use of styles in Word. This allows screen readers to navigate a document and improves accessiblity for everyone.

- 1. Start a new line to create a heading, or select text to change to a heading.
- 2. Open the *Home* tab, and choose the appropriate heading in the *Styles* panel.
- Headings 1, 2, or 3 can also be assigned using Cmd + Alt + 1, 2, or 3, respectively.

srobat									
AaBbCcDdEe	AaBbCcDdEe	AaBbCcDc	AaBbCcDdEe	AaBbCcDdEe					
Normal	No Spacing	Heading 1	Heading 2	Heading 3					

Alternative Text

Images can be given appropriate alternative text in Word. Alt text is read by a screen reader in a Word file and should remain intact when exporting to HTML or PDF.

- Right-click on the image and select *Format Picture*. A dialog will appear.
- Select the *Layout & Properties* icon and choose *Alt Text*.
- 3. Enter appropriate alt text only in the *Description* field (not the *Title* field).

See webaim.org/techniques/alttext for more information.

Columns

Always use true columns. Don't create columns with Tab.

- 1. Select the *Layout* tab on the ribbon.
- 2. Select *Columns* in the *Page Setup* group.
- 3. Choose the number of columns.

Home	Insert	Design	Layout	References	Mailings	Review	View	Deve
			Line Numbers	Indent		Spacing		
Ш.	4.2.		·) □ ·		♦ Left:	0"		Before:
Margins 0	Orientation	Size Colum	ns Breaks	bc [−] Hyphenation ▼	= Right:	0"	▲ ▼ ◆=	After:

Lists

Use *true numbered and bulleted lists* to emphasize a point or a sequence of steps.

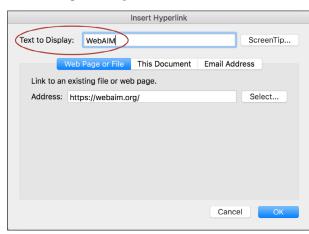

- 1. Select the *Home* tab on the ribbon.
- 2. Choose the *Numbered List* or *Bulleted List* option from the *Paragraph* group.

Home	Inser	t	De	sigr	ı	La	yout		Refe	eren	ces		Mai	ling	s	R	evie	ew
	6	Calib	ri Liç	ght (I	н	•	13	•	۹~	A۳	Á	a •	Ą		:=	٣	1=	•
Paste 🧉	3	В	I	<u>U</u>	Ŧ	abe	X ₂	X ²		A •	~	Ŧ	А	•			Ξ	

Hyperlinks

Word *automatically creates a hyperlink* when a user pastes a full URL onto a page. These may not make sense to screen reader users, so make sure the link text is unique.

- Select a hyperlink, right click, and select *Hyperlink* or hit *Cmd* + *k*.
- 2. Change the text in the *Text to Display* field to a more meaningful description.

Data Tables

Accessible tables need a *clear table structure* and *table headers* to help guide a screen reader user.

 Select the *Insert* tab on the ribbon, then select *Table > Insert Table*.

 To add table headers to the first row, select *Table Tools > Layout* on the ribbon, then choose the *Repeat Header Rows* option in the *Data* section.

Table Design Layout		
0.1" Distribute Rows		
3.25" Distribute Columns	Text Cell Sort Repeat Header Row	vs

Options in the *Design* tab may be used to change appearance but will not provide the necessary accessibility information.

Accessibility Checker

Word includes an accessibility resource that *identifies accessibility issues.*

 Select the *Review* tab on the ribbon, and click *Check Accessibility*.

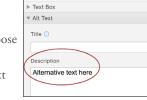

2. The checker presents accessibility errors, warnings, and tips for making repairs.

Select specific issues to see *Additional Information* at the bottom of the task pane.

Other Principles

- Ensure that font size is sufficient, around *12 points*.
- Provide sufficient contrast.
- Don't use color as *the only way* to convey meaning.
- Provide a *table of contents* for long documents.
- Use *simple* language.
